PA13/10019	16/12/13	Mr Peter Dann Pand JD Property Developments	Erection of a dwelling (amended design to PA12/05197) 77 Queensway, Hayle TR27 4NL	1/1/14 – extension req'd 17/12/13 and approved	Phil Brookes The council's Conservation officer considers the proposal to be of poor design and out of keeping with the character of the existing neighbouring property (which is being redeveloped), they consider that the development would fail to preserve or enhance the character of the designated Conservation Area. As such it is likely that it will be recommended for refusal.	Hayle Town Council objects on conservation grounds. Submitted online 24/1/14.

						Council would like to know what the Conservation officer's comments and those of the planning officer on this application are. It is regrettable that the planning officer did not supply the Council with her comments. Submitted online 24/1/14.			
PA14/00032	10/1/14	Ms Florence Bennett	Extension to holiday chalet Broadview, E10 Riviere Towans, Phillack, Hayle	29/1/14	Zoe McAden This is a small extension and the overall finish and character remains unchanged. Under the circumstances a flat roof seems appropriate and minimises the scale of the proposal. Site is a small holiday chalet on Riviere Towans. It is proposed to extend to the rear with a flat roof and matching finishes.	No objection. Submitted online 24/1/14.

PA13/09152	9/1/14	Mr Jonathan Oates	Change of use of building from funeral directors (A1) to a fitness centre (D2 Use Class) and nightclub (sui generis use), construction of porch extension to front (north) elevation and construction of lean-to extension /enclosure for outside smoking area /toilet facilities at side (west) elevation of property. 3 Foundry Lane, Hayle, Tr27 4HD	28/1/14	Phil Brookes The proposed use is considered acceptable and the scheme would ensure the retention of the existing structure which is otherwise likely to be demolished to make way for a block of flats. The Conservation Officer supports the proposal and there are no objections from the council's environmental health section or from the highways officer. Approval is likely to be recommended subject to submission of a satisfactory acoustics report to ensure that noise levels are acceptable.	No objection. Submitted online 24/1/14.
