HM October report to the Town Council

#### North Quay

Some may have noticed that portacabins have arrived on the quay adjacent to the old stable block. On completion of being fitted out and clad they will be used as the site sales office. Some decking and edge protection will also be installed at the entrance and for safety reasons public will be routed around the rear of the units.

It may however be necessary to close the area off to public for short periods when the necessary works to complete the unit are being undertaken. The harbour is liaising closely with the site and will endeavour to provide as much advance notice as it can to public of any required closures and apologise for any inconvenience this may cause.

Could I ask that Any members of the public who do complain to HTC are asked to contact either myself or Alix who will endeavour to satisfy the complaints on 01736 754043

#### South quay

The reinstatement of the quay wall is progressing slowly and following an inspection last week it is evident from the cracking in the concrete surface which has occurred in various areas of the quay that it may be necessary to conduct an invasive inspection to ascertain what further works may be necessary.

## HHAC

The Hayle harbour Advisory meeting scheduled for 2pm on the 11<sup>th</sup> October at the Passmore Edwards institute has now been moved to the following week the 18<sup>th</sup> as Alix and I will be attending an all-day South West regional Ports Meeting on the 11<sup>th</sup>

For those who may be interested The Southwest Regional Ports Association has evolved from what was formerly a Devon & Cornwall harbour networking group, and in response to requests from regional & local government agencies to provide a single point of contact for ports in the Southwest Region; and now covers the region to include the Isles of Scilly, Cornwall, Devon, Dorset, Somerset, Bristol, Gloucestershire and Wiltshire

Meetings are held on a regular basis and form an important part of inter port cooperation they have a very varied agenda that deals with new legislation the port marine safety code, health and safety and many other port marine related issues. A guest speaker normally associated with the marine industry is invited to present on a topic that is of interest to ports or to inform the meeting of their function within the industry. Meetings are normally hosted by one of the member ports which provides an opportunity to see how other ports operate and to share their experiences. At this month's meeting there will be a tour of the HM Coastguard Search and rescue facility.

## **Estuary Navigational post**

One of our navigational poles in the estuary has recently been found laying on its side in the sand and has been recovered to the Lelant foreshore. I am currently waiting on contractor availability to have the pole reinstated.

## Dredging

I was hopeful that dredging would have recommenced now that we are into autumn, but the contractor we use is currently working at another location and is expected to return to Hayle later this month.

## Wave Hub Fisheries Mitigation Fund Application

The purpose of the fund is to support projects to improve the harbours of St Ives and Hayle through maintenance of existing infrastructure, innovation, training, projects to support the selling of fish and shellfish to customers in Cornwall and acting as a cashflow loans/seed/match funding for larger projects where covering upfront costs is an issue.

Hayle applied to the fund for a grant towards the cost of a small suction dredger that could operate in the outer estuary the aim of which was to improve the channel alignment and depth to reduce the risks users are currently exposed too. This purchase would not only enable the harbour to meet its statutory obligation of maintaining a safe navigable channel but also assist in its environmental commitment of dune replenishment as sand could be pumped directly to areas where erosion has occurred on either side of the estuary.

Unfortunately, our application was unsuccessful, but I would like to thank Cllr Peter Channon for his valued support and assistance in taking the project forward.

## Dear Peter,

## Wave Hub Fisheries Mitigation Fund Application [Hayle Harbour Dredging]

Thank you for submitting your application to the Wave Hub Fisheries Mitigation Fund. The total grant request of all the applications received exceeded the available funding and therefore we were unable to offer funding to all applicants.

Your application was appraised by Cornwall Council Officers against the criteria of the fund, and then considered by the Stakeholder Panel. Unfortunately, your project was not selected for funding as other projects were felt to align more closely with the purpose of the fund. We regret that we were unable to assist you in this instance wish you good luck with your project.

Yours sincerely Meike Koops | Programmes Officer Economy and Skills Service Sustainable Growth and Development | Cornwall Council

## **Youth Problems**

Police recently responded to a call from Simon Wright and attended Lula's on North quay to deal with a youth problem which was quickly resolved.

P M Haddock

Harbourmaster

Hayle harbour Operations Ltd

То	HTC	Full Council	05 10 2023
From	C Cllr P Cł	nannon Hayle west	
Ref	CC Repor	t for SEP 2023	

**CC ITEMS PREV** West Planning PA22/07795 (21<sup>st</sup> Aug) refused members site visit & passed outline. (see below) under Hayle items. **Update** with Matt Hodson (Celtic sea power) re offshore potential after latest area bids !!. **CC Briefing** on potential sale of Dolcoath offices. First meeting of **CC 'Tourism Inquiry'** which will look at sustainable tourism post Covid. Questions

**Hayle Items Dredging meet** at Harbour office for parties interested in keeping the Harbour safe !!! Attended **Hayle Health & Wellbeing** event on the Sat and found it useful to see various groups involved with Hayle, plus was sold enormous cake by the WI. (Guides/Scouts)

HTC involved with 'planning brief' re the HGA led by Louise Woods (Head of CC Planning) An open and 'gloves off' discussion with strong comments from the Hayle team, and an honest response from CC which has cleared the air, and is part of my 'ongoing query' with the planners regarding a recent application. (Pre Apps & Site Visits)

**Loggans RB** Have progressed talks with CC re a look at the RB before the A30 improvements open. Cabinet member confirmed on Wed (E-Growth Com) that this will happen. (More in OCT Rpt)

Re-Run West Planning Dolcoath 21<sup>st</sup> Aug PA22/07795 land next to football club. Local member and HTC spoke on this to the committee. Despite the local member making the case for a site visit (and briefing) and members actually requesting this, it was not allowed, and the outline application was eventually passed after considerable debate and members questions. Local member PC has written to head of planning regarding this but due to summer leave a reply has not yet been received. As this is yet another 'contested' situation

I can not enlarge on the subject in public at 'this' meeting unless we go into confidential session. My brief to planning members is att for the record.

Peter Channon 05 10 2023
