

Deputy Mayor's Speech.

My journey to becoming a Hayle Town Councillor began when I saw the erosion of Hayle beach and Harvey's Towans. Seeing the devastation caused by the dredging activities in the harbour, I felt impelled to try and do something to stop it. To try and make a change I believed that I needed to be in a position with more power, so I stood forward for co-option on to Hayle Town Council. I began by working with the Strategic Planning Committee at Cornwall Council, and eventually this led to Save our Sands obtaining a memorandum of understanding with ING to stop dredging, and the installation of the sluice gates.

Change happened!

Great things can be achieved with passion and enthusiasm. I hope that we as the town council can attract those people who are passionate about where they live, and want to make a difference, to join us. Together the town council will be in a much stronger position and will achieve even more great things in the future.
